

INVERBOOST®

Saving the planet

Dehumidifier

Thanks to the precise INVERBOOST® full-inverter technology, the Dehumidifier is able to run smartly always according to the humidity of your indoor pool space. Superior energy-saving, intelligent dehumidification capacity & quiet operations.

Saving 50% energy

High humidity sensing accuracy, fast response, and it can be efficiently and automatically defrosted to maintain the highest efficiency and keep the air dry.

No more ugly rusting

Adopted anti-rusting casing and designed for aesthetics and practicality.

Ultra-thin

Small size, easy to carry and place in any space.

Suitable for all indoor hot tub spa rooms and most indoor swimming pool rooms.

They can also be used to advantage in changing rooms, wellness centers, basements, and all other rooms.

model		XDH40i
Capacity		
Dehumidifying Capacity at 30°C – 80% H.R	L/H	4
Dehumidifying Capacity at 30°C – 70% H.R	L/H	3.5
General data		
Power input	kW	1.2
Electric heating input	kW	0.7
Energy factor (EF)	L/KW.H	3.3
Rated power	kW	1.9
Rated current (with electric heating)	A	10
Fuse current (with electric heating)	A	12
Air flow	m ³ /h	800
Power supply		220–240V/50Hz
Compressor type		Rotary
Selection of cable	mm ²	4
Noise level (5m)	dB(A)	46.5
Net weight	kg	58
Gross weight	kg	65
Net dimension	mm	1132x255x853
Packing dimension	mm	1170x290x920
